

SCHOOL OF SOCIAL SCIENCE

Reinvent Your Career & Research Your Future

About the Department

ASTI's School of Social Science introduces you to major psychological concepts and theories in order to provide you with a solid understanding of the human mind and behavior. You will attend lectures on biological, social, and cognitive psychology, as well as tutorials in which you will collaborate with peers to discuss topics related to the lecture materials. Studying psychology can help you advance in a variety of fields, including management, education, and counseling, to name a few.

Why Choose ASTI Academy?
